

<b>Product Name</b>	Electrical insulator
<b>Brand</b>	NCE
<b>Model</b>	EPI-B-15A
<b>Material</b>	Epoxy resin
<b>Type</b>	Column type
<b>Color</b>	Customized
<b>Rated Voltage</b>	10kV-72.5kV
<b>Application</b>	Electrical application
<b>Operating Temperature</b>	-40°C~75°C
<b>Altitude</b>	0~4000m
<b>Place of Origin</b>	China

We have 8 AGP epoxy resin foaming machines to manufacture epoxy resin isolators with Araldite brand epoxy resin from Huntsman company. Our isolators have very stable electrical specifications and weather-proofing characteristics which meet the most severe circumstance requirements.

Our voltage levels have 12kV, 15kV, 24kV, 33kV, 40.5kV, 72.5kV. Our bushings are widely used in circuit breaker, switchgear, current transformer, etc. We can also help customers to make the molds and manufacture high quality electrical insulation bushings.

Each of our products will be detected by X-ray detector to ensure 100% qualification rate.

Advantage:

1. High intensity
2. Electrical resistance
3. Heat, fire, water resistance
4. Low shrinkage
